CAREER OBJECTIVE

To secure a position in a forward-thinking organization that values innovation and continuous improvement, where I can leverage my strong problem-solving skills to contribute to organizational success while advancing my professional growth.

EDUCATION

CMR Engineering College	2023 – 2027
B.Tech Computer Science & Engineering CGPA: 8.92	
Narayana Junior College	2023
Intermediate MPC CGPA: 9.6	
Sai Sindhu Grammar School	2021
High School SSC CGPA: 10.0	

PROJECTS

Study-Vault (MERN Stack)

- Built a full-stack study material sharing platform enabling students to upload, browse, and download academic files (PDF, DOCX, PPT), successfully tested with 20+ users; deployed on Render with Cloudinary for cloud file storage.
- Designed RESTful APIs with Node.js/Express.js and used Context API for global state management in React.js.
- Implemented JWT-based authentication with protected routes to ensure secure user access and session management.

Document Q&A System (RAG)

- Built a retrieval-augmented generation (RAG) pipeline that answers questions from a PDF document by retrieving relevant chunks instead of passing the full document into an LLM prompt, avoiding context-window limits.
- Implemented chunk-level citation tracking so every generated answer traces back to its exact source text, using cosine-similarity vector search over Sentence Transformer embeddings stored in ChromaDB.
- Used Llama 3.2 (Ollama) for local answer generation with a grounding-only prompt instruction to reduce hallucination, ensuring no document content leaves the machine.

Hospital Management System (Java | MySQL | JDBC)

- Developed a console-based Hospital Management System automating patient registration, appointment scheduling, and doctor management using JDBC for MySQL connectivity.
- Applied a modular class design using Patient, Doctor, and Appointment entities with appointment availability validation.

TECHNICAL SKILLS

Programming Languages: Java, C, Python

Core Fundamentals: Data Structures, Object-Oriented Programming (OOP)

Web Technologies: JavaScript, HTML, CSS, React.js, Node.js, Express.js

Databases: MySQL, MongoDB

AI & Machine Learning: Retrieval-Augmented Generation (RAG), LLM Integration

Tools: Git, GitHub

Soft Skills: Teamwork, Problem-Solving, Time Management, Leadership

CERTIFICATIONS

- Java Fundamentals Certification – Infosys Springboard
- Elite Certification in Java Programming – NPTEL
- Java Programming Certification – GeeksforGeeks
- Merit Certificate – Codeathon

ACHIEVEMENTS

- Earned 2-Star rating on CodeChef and achieved Knight rank on LeetCode with a rating of 1850.
- Selected among the top 20 teams at the IIIT Hyderabad Hackathon.
- Finalist at the national-level TechnoVista Hackathon at VNR VJIEET — top 56 out of 150+ teams in a 24-hour event.
